

## 63025 Rabbit Skin Glue, cubes

### Technical Data

Form:	cubes
Color:	yellowish - brown
Odor:	slight odor
pH-Value:	5.5 – 6.5
Humidity:	11 %
Gelatinous strength (12.5 %):	340 – 360 Bloomgrams (17h 10°C)
Viscosity (17.5 %):	4.25 – 5.50 Engler
Ash:	max. 2.5 %
Fusion point:	31 - 32°C (20 %)
Fat content:	max. 1.5 %
Storage:	Store product in a dry place, keep away from water and humidity.
Application:	Soak the gelatine grains in cold water during 2 hours. Then slowly heat up in a double boiler between 50 and 60°C.

Gelatine is usually prepared in solutions of 2 to 60 %, depending on the purpose of application.
