

MIKROSKOPLUPE **Microscope magnifying glass**

- 60 – 100 x magnification
- Size: 2" W x 0,75" D x 3,25" H
- Light with on/off switch
- Adjustable focus and zoom
- Includes carry pouch and bulb replacement tool
- Requires 2 "AAA" batteries

The microscope can make objects easier to view by magnifying them from 60 to 100-times their original size. Its mini light bulb concentrates light directly on the object you are viewing.
