

41600 Terra Ercolano

Type: Red pigment
Form: Powder
Description: Natural red earth
Color Index: Pigment Red 101, C.I. 77491

Technical Properties:

Color: red
Characteristics: transparent granules
Specific weight: 0.8 g/cm³
Opacity: good (6)*
Light fastness (full tone): very good (7)*
Alkali fastness: very good (7)*
Chemical stability: good (6)*
Field of application: Wallpainting, cement, casein, oil, watercolor, encaustic
Historic references: Roman, Green, Renaissance

*Scale 3/8

Chemical Analysis:

Gypsum (CaSO₄ · 2H₂O): 73 %
Anhydride (CaSO₄): 14 %
Hematite (Fe₂O₃): 5 %
Method: UNI EN 13925-2:2006
