

78070 Lanolin

CAS No.: 8006-54-0
EINECS: 232-348-6
INCI: Lanolin

Chemical / Physical Properties :

Water soluble acids and alkalines	complies
Water absorbing capacity	200 %
Acid value	1.0
Saponification value	90 – 105
Peroxide value	20
Water soluble, oxidizable substances	complies
Butyl hydroxy toluene	200 mg/kg
Paraffins	complies
Chloride	150 mg/kg
Loss on drying	0.5 %
Sulphate ashes	0.15 %
Pesticide	Complies to Ph.Eur.
Drop point	38 – 44°C

Storage;

Store in tightly sealed containers, protected from humidity and heat.
